Project/Event Support Program

Objectives:

The main objectives of TRRA Project Event Support Program are to:

- Maximize the economic, tourism, social and cultural benefits of major events to Henry County.
- Identify and assist in developing events which are appropriate to our image as a family-friendly, outdoor destination.
- Integrate the promotion of major events with the marketing programs of Henry County in order to maximize the benefits for tourism.

Program Principles:

1. The Program is a support system that provides levels of assistance to events that achieve tourism outcomes of benefit to our region. The program aims to support the structure and marketing activities of its tourism partners.
2. The Program seeks to identify and assist those events that express and contribute to the unique identity of the tourism of Henry County.
3. The Program supports events with significant tourism potential that can support our strategic direction.
4. Projects/events that are “market ready”, with a developed marketing plan and the capacity to grow incrementally over the funding period will have a greater likelihood of gaining cash support.
5. Projects/events are required to demonstrate a well-structured and organized management committee with the ability to handle issues such as public liability and insurance.
6. It is important that events demonstrate that they will not be reliant on continued support from TRRA for their long-term survival or growth.

- Progress reports on the project/event (including its marketing) are to be submitted to TRRA at agreed regular intervals.
